

UPHMIS reporting format			
Sub centre			
State			Month-
District			Delivery point(DP) (Yes/No)-
Block		Public/Private-	
Category	Urban/Rural-	Govt building/Panchayat/ Rental building-	Delivery point (DP) (if yes) – L1/L2/L3-
SC Name			
Section A	Human resource	Number reported for the month	
A1	HR (Regular/Contractual/Re-appointed) working at facility	Regular	Contractual
A1.1	ANM		
A1.2	MPW male		
A1.3	GNM		
A1.4	Female sweeper		
A2	ASHA	Number of ASHAs	
A2.1	Sanctioned		
A2.2	Working		
A3	Aganwadi Worker (AWW)	Number of AWW	
A3.1	Sanctioned		
A3.2	Inpositioned		
Section B	Trained HR	No of ANMs	
B1.1	SBA		
B1.2	NSSK		
B1.3	PPIUCD		
B1.4	IUCD		
B1.5	DMPA (injectables)		
B1.6	HBNC		
B1.7	Immunization		
Section C	Availability of RMNCH+A drugs, supplies and equipment as per 5x5 matrix		
C1	Reproductive health	Closing balance of reporting month	
C1.1	IUCD 375		
C1.2	IUCD 380A		
C1.3	OCP		
C1.4	ECP		
C1.5	Condoms		
C1.6	Mifepristone + Misoprostol (MMA)		
C1.7	DMPA (injectables)		
C2	Maternal health	Closing balance of reporting month	
C2.1	Inj. Oxytocin (applicable for DP)		
C2.2	Tab Misoprostol		
C2.3	Tab Nifedipine		
C2.4	Inj. Magnesium sulfate (applicable for DP)		
C2.5	Sterile pads		
C2.6	Sanitary napkins		
C2.7	IFA		
C2.8	Pregnancy test kit		
C2.9	Haemoglobinometer		
C2.10	Urine albumin kit		
C2.11	Inj Dexamethasone		
C2.12	Tab Paracetamol		
C2.13	Tab Calcium		
C2.14	Cord clamp (applicable for DP)		
C2.15	Labour table (applicable for DP)		
C2.16	Kelly's pad (applicable for DP)		
C2.17	Partograph (applicable for DP) (Yes/No)		
C2.18	Standard 16 protocols displayed at facility (Yes/No)		
C2.19	Availability of five/seven trays as per protocol (Yes/No) (applicable for DP)		
C3	New-born health	Closing balance of reporting month	
C3.1	Inj. Vit K1 (1 mg/ml) (applicable for DP)		
C3.2	Inj. Gentamicin		
C3.3	Amoxicillin syrup		
C3.4	Mucus extractor (applicable for DP)		
C3.5	Self inflating Bag (240/500 ml) and mask with both pre term & term baby (size 0,1) available at facility (applicable for DP)		

C3.6	Clean linen/towels for receiving new born (applicable for DP)	
C3.7	Sterile cord cutting equipment (applicable for DP)	
C3.8	Designated newborn care corner (Yes/No) (applicable for DP)	
C3.9	Designated space available for KMC (Yes/NO) (applicable for DP)	
C3.10	Functional radiant warmer (Yes/No) (applicable for DP)	
C4	Child health	Closing balance of reporting month
C4.1	ORS	
C4.2	Tab Zinc DT (20mg)	
C4.3	Syp Salbutamol	
C4.4	Salbutamol nebulizing solution	
C4.5	Syrup Albendazole	
C4.6	Syrup Vit. A	
C4.7	Tab Amoxicillin DT (125 mg)	
C4.8	Tab Amoxicillin DT (250 mg)	
C4.9	Syrup Bi-weekly IFA supplementation	
C5	Adolescent health	Closing balance of reporting month
C5.1	Tablet Albendazole	
C6	Essential logistics	(Yes/No)
C6.1	Bleaching powder	
C6.2	Fetoscope/Doppler	
C6.3	Soap available	
C6.4	Colour coded bins and bags (Red/Black) in sufficient quantity	
C6.5	MCP cards in sufficient quantity	
C6.6	Case sheet in sufficient quantity (only for DP)	
C6.7	Tally sheets available	
C7	Other functional equipment at facility	(Yes/No)
C7.1	Weighing machine for infant	
C7.2	Weighing machine for adult	
C7.3	Hub cutter with needle destroyer	
C7.4	BP apparatus with stethoscope	
C7.5	Thermometer	
C7.6	Autoclave/Boiler	
C7.7	IUCD kit	
C7.8	PPIUCD forceps (only for DP)	
C7.9	Glucometer	
C7.10	MUAC tape	
C7.11	Height scale	
Section D	Performance Indicator	
D1	Maternal health	(In number)
D.1.1	Pregnant women visited for ANC check up	
D.1.2	ANC check up	Number of pregnant women
		Weight BP Per abdomen HB Urine albumin
D.1.2.1	Pregnant women examined	
D1.3	High risk pregnancy	Number of pregnant women
		Hb<7 gm Hypertension (>140/90) Age 35+ Diabetics Previous history of any complication* Any other
D1.3.1	New pregnant women identified as HRP	
D1.3.2	High risk pregnancy (referral and follow up done)	
	Services	Number of PW
D1.4	Pregnant women given 180 IFA tablets	
D1.5	Pregnant women given 360 calcium carbonate with D3 tablets	
D1.6	PW in the last trimester contacted by ASHA	
D1.7	Pregnant women birth plan prepared/reviewed (third trimester of pregnancy)	
D1.8	PW received full ANC check-ups (4 visits, 2 TT, 180 IFA Tablets, 360 Calcium tablets, 1 Albendazole in the 2nd trimester)	
D1.9	Pregnant women status (applicable for only DP)	In labour Not in labour

D1.9.1	Arrived in the facility						
D1.9.2	Admitted in the facility						
D1.9.3	Outcome among arrival (applicable for only DP)	Women	Newborn				
D1.9.3.1	Referred to higher facility						
D1.9.3.2	Sent home healthy						
D1.9.3.3	Deaths at facility						
D1.10	Newborn (applicable for only DP)						
D1.10.1	Still birth : Fresh						
D1.10.2	Still birth : Macerated						
D1.10.3	Newborn where delayed cord cutting procedure followed						
D1.10.4	Newborn received skin to skin care immediately after delivery						
D1.10.5	Newborn received vitamin K1 after delivery						
D1.10.6	Newborn weighted at birth less than 1800 gram						
D1.10.7	LBW received KMC as per the guideline						
D2	Maternal complication (applicable for only DP)	Sent home healthy after discharge	LAMA	Died at facility	In case of out-referral		
					Survive	Died	Status unknown
D2.1	Prolonged labour						
D2.2	Obstructed labour						
D2.3	Rupture of membrane>12 hours without labour						
D2.4	Rupture of membrane >18 hours in labour						
D2.5	Pregnancy induced hypertension						
D2.6	Mild / severe pre-Eclampsia						
D2.7	Eclampsia						
D2.8	Antepartum hemorrhage (APH)						
D2.9	Infection / sepsis						
D2.10	Preterm labour						
D2.11	Premature rupture of membrane						
D2.12	Post-partum hemorrhage (PPH)						
D2.13	Anemia						
D2.14	Others						
D3	Newborn complication (applicable for only DP)	Sent home healthy after discharge	LAMA	Died at facility	In case of out-referral		
					Survive	Died	Status unknown
D3.1	Preterm birth (<37 weeks gestation)						
D3.2	Low birth weight (<2500 grams)						
D3.3	Asphyxia						
D3.4	Infection / sepsis						
D3.5	Birth anomalies						
D3.6	Others						
D4	Child health	(Number of children 2 months to 5 yrs)					
		Pneumonia		Diarrhoea			
D4.1	OPD/Clinic day						
D4.2	Suspected/diagnosed by ASHA						
D4.3	Diagnosed by ANM						
D4.4	Children who received amoxicillin						
D4.5	Children who received both ORS+zinc						
D4.6	Children who received only zinc						
D4.7	Children who received only ORS						
D4.8	Children referred						
D4.9	No.of ASHA with amoxicillin supply						
D4.10	No.of ASHA with ORS & Zinc stock						
D4.11	No.of ASHA with only ORS stock						
D4.12	No.of ASHA with only zinc stock						
D4.13	No of young infants (0-2 month) diagnosed with sepsis by ANM						
D4.14	No. of young infants given pre-referral dose						
D4.15	No of young infants who completed 7-day antibiotic treatment						
D4.16	No of young infants who were treated by ANM and survived						

D4.17	No of children given Bi weekly IFA supplementation (small IFA tab/syrup)						
D4.18	Child immunization	Number of children					
D4.18.1	Infants 0 to 11 months old who received f-IPV-1						
D4.18.2	Infants 0 to 11 months old who received f-IPV-2						
D4.18.3	Infants 0 to 11 months old who received IPV-im						
D5	Family planning	Number of services					
D5.1	DMPA (Inj. Antara)	Dose 1	Dose 2	Dose 3	Dose 4	Dose 5	Dose 6
D5.1.1	Acceptors						
	1st Dose of DMPA	Post abortion		Post partum		Interval	
D5.1.2	Women						
D5.2	Follow-up/complications	Male Sterilization		Female Sterilization	PPIUCD	IUCD	DMPA (Inj. Antara)
D5.2.1	Follow-up cases						
D5.2.2	Complications						
D5.3	Beneficiaries received counselling for FP						
D5.4	Beneficiaries presented with complete Basket of Choice						
D6	JSSK	Number of PW					
D6.1	PW under JSSK received drugs and consumables (only at DP)						
Section E	Process indicator	(In number)					
E.1	AAA meeting planned (Yes/No)						
E.2	AAA meeting held (Yes/No)						
E.3	ASHAs present in meeting						
E.4	AWWs present in meeting						
E.5	VHSNC formulated/constituted						
E.6	VHSNC meeting held						
E.7	VHND/RI sessions supported by AVD						
E.8	Whether microplan review exercise conducted (Yes/No)						
Section F	HBNC	(In number)					
F.1	ASHAs having complete and functional HBNC kit						
F.2	ASHAs having complete HBNC drug kit						
F.3	Number of HBNC visit forms submitted by ASHA						
F.4	Number of ASHA submitted HBNC visit forms						
F.5	Newborn identified by ASHA	Number of new-borns					
		Visited	Birth defect	weight <2500 gm	weight <1800 gm	Referred	Deaths
F.5.1	Male						
F.5.2	Female						
F.6	Low birth weight newborns followed up by ASHAs after discharge from SNCU						
F.7	ASHAs supported by ASHA Sanginis in HBNC visit						
F.8	HBNC visit forms verified by ANM during VHND/ Home visits						
Section G	Village Health & Nutrition Day (VHND)/Community process						
G1	Social marketing products distributed by ASHA	Condom (in pices)	OCP (in cycle)	ECP	Sanitary napkins-women	Sanitary napkins-Adolesent girls	PTK
G1.1	Number of beneficiaries						
G2	Adolescent girls services given by ANM (in number)	Health check-up		Girls (<7 hb/dl)		Girls (>=7 and <11 hb/dl)	IFA Tablet
G2.1	Number of beneficiaries						
G3	Counselling	PW	Parents/guardians for 0-5 year children		Eligible couples	Adolescents	Other beneficiaries
G3.1	Number of beneficiaries						
G4	Services provided by AWW in VHND	Child Weighted	Weight updated in Growth chart		THR distributed to children		THR distributed to PW
G4.1	Number of beneficiaries						
G5	SAM / severely underweight children checked during VHND by ANMs						
G6	Low weight children referred to higher facility for blood & stool test						
G7	SAM / severely underweight children referred to facility for treatment
